Sub: Innovative Student Projects Award 2017

Dear Colleague,

The Indian National Academy of Engineering (INAE), founded in 1987, comprises India's most distinguished engineers, engineer-scientists and technologists covering the entire spectrum of engineering disciplines. INAE functions as an apex body and promotes the practice of engineering & technology and the related sciences for their application to solving problems of national importance. One of the objectives of the Academy is to encourage inventions, investigations and research to promote their applications for development of national economy.

The Academy had instituted the subject award in 1998 to identify innovative and creative research projects undertaken by the students at three levels, B.E./B.Tech/B.Sc.(Engg), M.E./M.Tech/ M.S. and Ph.D in Engineering Institutions. The award particularly encourages joint projects among Industry, Research Laboratories and Academic Institutions. The endeavour is meant to encourage young talent and accord recognition and incentives to them. The response to the award during the last nineteen years has been enthusiastic. INAE firmly believes that an early recognition of merit and talent is important which can mark the beginning of a brilliant career.

I have pleasure in forwarding a brochure giving the details of the award. The eligibility criteria is as follows:
