INFORMATION SECURITY AND DIGITAL FORENSICS

(ISDF-2017)

June 05th-09th, 2017

Organized by

Division of Information Technology

Netaji Subhas Institute of Technology

Dwarka Sector-3, New Delhi-110078

OBJECTIVE OF THE COURSE

Recent advances in information and communication technology helps us to retrieve information faster and also allows us an easy access. However, a major concern is the authenticity and tampering of the information. The objective of the course is to enlighten the audience about the importance of information security and computer forensics by bringing together eminent researchers, educators and practitioners in the field under one roof.

ABOUT THE INSTITUTION

An Autonomous Institution under Govt. of NCT of Delhi and affiliated to University of Delhi, Netaji Subhas Institute of Technology is a seat of higher technical education in India. It was established in the year 1983 as Delhi Institute of Technology with the objective of meeting the growing demands of manpower in the emerging fields of engineering and technology with a close social and industrial interface. Over a period of time, the institute has carved a niche for itself, both nationally and internationally.

ABOUT THE DEPARTMENT

The Information Technology division was introduced in the year 2002 with an intake of 60 students to meet the increasing demand of IT professionals. The division offers Bachelors and Ph. D. programs in Information Technology. It provides an excellent learning environment with dedicated young faculty members, state-of-the-art laboratories and innovative academic processes. The division focuses on providing an in-depth knowledge in

the field of Information Technology such as data structures & algorithms, databases, networks, multimedia, software engineering, Internet of things (IoT), machine learning, to name a few. We aspire our students towards becoming next generation IT professionals capable of generating programming and logical skills, providing networking solutions and becoming leaders in software industry, government and academia. Servers/workstations from SUN, IBM, HP, Dell, desktops and mobile devices are available in various labs of the department.
